

EBB&FLOW

A splash of colour

The Horizon collection is about renewal and choosing to let colours and wonderful shapes into your decoration style.

With its wide shape and shallow height, Horizon invites you to look far and gaze into the unknown. All our lights are mouth-blown and finished by hand in Denmark, and Horizon is no exception.

Available in 4 sizes and 9 colours from cool clear, grey and blues to warm golden browns and greens. Horizon is fitted with brass or silver metal fittings and gold or silver fabric wire.

EBB&FLOW

Spring ready

A sea of colours is presented in this new collection. Dive into it and you will discover wonderful nuances. Take for example this olive that will get your decoration ready for spring and liven up any space.

Distinctive shape

The shape of the Horizon is its most distinctive feature. Being in the sphere of contemporary lighting, we have attempted to shed a different light on the design process and create a product that will stand out.

Romantic atmosphere

Lighting is utilised in creating certain atmospheres, which is at heart of all our design processes. With Horizon there are many options for doing so. Obsidian is able to enhance a sweet and warm atmosphere.

Perfect for combining

Coupling different lightsources in one space is something we have always embraced. With a variety of colours and sizes the Horizon is very compatible with our other collections.

EBB & FLOW

The model imposes on its environment a vibrant splash of colour that will liven up the room.

Ebb & Flow is a Danish company with an online webshop, as well as agents and distributors all over the world, reselling to architects, interior designer, retail stores, and private customers. Our agents are active in 17 european countries and we currently have customers in more than 40 countries worldwide. All our designs are by Ebb & Flow owner Susanne Nielsen, made with materials from Italy and Poland, and assembled in Denmark.
