

Experience unique lights at Europe's leading interior fairs

The shades, wires and bulbs are all packed and the entire stand has been prepared for shipment. This marks the beginning of a new year, and like previous ones, it is a time for exhibiting at Europe's leading design fairs. Every year EBB & FLOW visits the well-known, international interior fair Maison & Objet in Paris and the German furniture and interior exhibition IMM Cologne in Germany. This April, Milan is also on the map. For the second time, the Italian fair Salone del Mobile will be a spectrum for the unique collection of Danish designed lights. You will be able to view them at the EuroLuce exhibition that only takes place every other year. The overall goal for EBB & FLOW is to overwhelm the international spectators with designs that are a special combination of British luxury and Nordic simplicity.

"Lights are something that needs to be experienced in real life. So, it is crucial to visit forums where potential buyers and partners get the opportunity to experience them, by glance and touch" says designer Susanne Nielsen. This year EBB & FLOW presents their recent designs Smykke and Horizon. Smykke recently received an award at the German Design Award 2019. You can experience and gaze upon the Danish designed lamps in:

- **Cologne from 14-20 January 2019 – Hall 3.1 - Stand D-031**
- **Paris from 18-22 January 2019 – Hall 6 – Stand B54**
- **Milan from 9-14 April 2019**

EBB & FLOW is a Danish company with an online webshop, as well as agents and distributors all over the world, reselling to architects, interior designers, retail stores, and private customers. Our agents are active in 17 European countries and we currently have customers in more than 40 countries worldwide. All our designs are by EBB & FLOW owner Susanne Nielsen, made with materials from Italy and Poland, and assembled in Denmark.
